**IMPORTANT:** In order to use this application properly, you have to disable the pop-up blocker on your internet browser.

**Available submissions**

The application offers five different options to submit information to AEMPS:

- 1) Actualizar la información sobre formatos actualmente en el mercado
- 2) Mantenimiento de medicamentos autorizados
- 3) Puesta en el mercado del primer lote
- 4) Imágenes del medicamento
- 5) Comunicación de desabastecimiento

**IMPORTANT!!**

- When the Option 2 (Maintenance on the market) has been finished, the MAH has to update the information on the pack sizes of these VMPs to be placed/kept on the market (option 1).
- CIMAVET database is updated daily with the information indicated in “option 1”; therefore, it is mandatory to change the status on the market if your products have to be updated in this option. *If the pack sizes have not been updated CimaVet shows the VMPs as “SUSPENDED”.*
